## Digital Wedding Photography Services:

Our Digital wedding Photography services are unlike our full service wedding coverage's. They are still the highest quality images created by our very own Master Craftsmen Certified Photographer – Randy Santee and some coverage's also include his wife Michele as a second artist. These packages have eliminated the Albums and instead include the priceless digital high resolution files. We limit our services to professionally photographing your wedding, supplying a set of previews, and giving you the reproduction rights to all the images.
